Profile

I am a Ph.D. student in the Graduate School of Culture Technology (GSCT) at KAIST, Daejeon, Korea, and a member of the Ubiquitous Virtual Reality (UVR) Lab, advised by Prof. Woontack Woo. My research interests include **Augmented Reality (AR)**, **Ubiquitous Virtual Reality (UVR)**, **remote collaboration**, and **spatial computing**. I received my M.S. degree in GSCT from KAIST, Korea, in 2023 and B.S. degree in Computer Science and Engineering from Sungkyunkwan University, Korea, in 2021.

Education

Bachelor of Science

Sungkyunkwan University, Suwon-si, Gyeonggi-do, Korea

Computer Science and Engineering

March 2016 – February 2021

Master of Science

Korea Advanced Institute of Science and Technology, Daejeon, Korea

Graduate School of Culture Technology

March 2021 - February 2023

Doctor of Science
Korea Advanced Institute of Science and Technology, Daejeon, Korea
Graduate School of Culture Technology
March 2023 - Present

Research Experience

OpenXR: TranSpace 3.0
Development of Untact Realistic OpenXR Platform Technology. National Research Project funded by Korean Government. Joint Research Project with KISTI, KAIST, KICT, and KIOM.
Member of the Real-World Digital Twin (DT) Generation and Management Team
December 2021– February 2025

Meta-Object
Meta-Object: Real-time XR Interface Technology Development for Environmental Adaptation. Funded from the Institute of Information & communications Technology Planning & Evaluation (IITP) grant funded by the Korea government (MSIT).
Member of the Intelligent Platform Team
April 2024– Present
